Contents:

JCIT: Editorial Board .................................................................................................................................. i
JCIT: Call for Papers & Special Issue .......................................................................................................... viii

< PART 1 >

How Does the IntelRate Controller Save Router Computation Resources? ........ 01
Jungang Liu, Oliver W.W. Yang

Stemming Versus Light Stemming for Measuring the Similarity between Arabic Words with Latent Semantic Analysis Model....................................................... 11
Hanane FROUD, Abdelmonaime LACHKAR, Said ALAOUI OUATIK

Jawi Stemmer: Evaluation of Stemmers Based on Strength and Accuracy ........ 19
Suliana Sulaiman, Khairuddin Omar, Nazlia Omar, Mohd Zamri Murah, Hamdan Abdul Rahman

The Mediating Role of Web User Satisfaction on Information Quality, Service Quality and the Effectiveness of Web-based Information System ......................... 29
Kamal Mohammed Alhendawi, Ahmad Suhaimi Baharudin

Performance Comparison between Discriminant Functions and Multi-Layer Perceptron Neural Networks in Sea Bed Logging Data Classification ................. 41
Muhammad Abdulkarim, Afza Shafie, Wan Fatimah Wan Ahmad, Radzuan Razali, Agus Arif

Analysis of Arithmetic Coding Differential Evolution .................................................. 51
Orawan Watchanupaporn, Worasait Suwannik

The Suitable Genetic Operators for Solving the University Course Timetabling Problem ................................................................................................................. 60
Wutthipong Chinnasri, Soradech Krootjohn, Nidapan Sureerattanan

What to Expect When Applying Karaoke to Thai Input Methods on Mobile Phone ...................................................................................................................... 67
Manasawee Kaenampornpan, Thanawat Kawattikul

Face Expression Recognition Based on Lifting Wavelet Transform and Principle Component Analysis ................................................................. 77
Ongalo P. N. Fedha, Huang Dong Jun, Richard Rimuru, Lilian Sing'oel

Application of Cardio-Sound in Congenital Atrial Septal Defect Patients ........ 88
Wu Xiaochen, Zhang Jinbao, Ouyang Hui, Wang Haibin, Yue Qin, Ding Sheng

The Clinical Research of Cardio-Sound Detector in Evaluating Cardiac-Function ......................................................................................................................... 92
Wu Xiaochen, Zhang Jinbao, Ouyang Hui, Wang Haibin, Yue Qin
Stability Analysis of Local Swarms in an Environment with Gaussian Profile
Liangshun Wang, Huajing Fang

A Semi-automatic Task Decomposing Way based on QoS in Manufacturing Grid
Yuan He, Fuyang Chen, Qi Zhu, Xinwang Song

Identification of Community Structure by Fuzzy clustering Theory
Zhetao Li, Hongzhi Zhang, Tingrui Pei, Youngjune Choi

Factors Influencing Online Reviews on the Different Types of Goods Sales
Dawei Tian

Highway freight volume forecasting based on wavelet kernel-based support vector machine
ZhangYi

A Review on Filtering Techniques for Switched Control Systems
Muhammad Naveed Iqbal, Jian Xiao

Measuring and Evaluating the Financial Value of Loss Listed Companies in China Based on the Principal Component Analysis
Yong Du, Jianying Chen, Bo Yan, Jun Du

Analyzing International Mobility of Academics by Using Bayesian Network
Dan Xiang

Knowledge Management and Process Innovation with Target Costing Systems: A Case Study
Jong-min Choe

Hybrid Paging Mechanism in Mobile IP based on Differentiated Service Types
Jihoon Lee, Hyun-chul Kim

WAVE based Vehicular Communications Systems: Applications and a Mobile Terminal Design
Cho-keun Ahn, Woong Cho

What increases employees' security compliance intentions?
Youngkeun Choi, Heejoong Hwang

The physicians’ expected benefits: An empirical study of the telemedicine system acceptance
Mijung Rho, Jae Kwon Bae

An Intelligent LED Illumination Control System Using Camera
Giao Pham Ngoc, Suk-Hwan Lee, Young Moon Yu, Ki-Ryong Kwon
The Effects of Trust and Dependence on Long Term Orientation in Food Service Franchiser-Franchisee Relationships ................................................................. 219
Jeong-Seok Yang, Sang-Youn Lee, Kyu-Chul Han

Business portfolio planning through competency analysis, based on the performance of small to medium sized enterprises ............................................. 233
Younsung Kim, Wanki Kim

Seungmin Lee, Hwachang Song, Byunghoon Chang

< PART 2>

A study on the application of internet based home healthcare management system in Korean older adults............................................................... 265
TaeBum Lee, HyunSook Chang

Analysis of Bacteria-Free Living Amoebae Interactions in Environments......... 273
Mi-Hyeon Kang, Suk-Yul Jung, Woo-Hyung Lee

Application of Green Husk of Juglans regia Linn and Effect of Mordants for Staining of Silk .............................................................................. 279
Jin-Sook Hwang, Su-Youn Park

Reviews on the Determining Sample Size using Statistical Method .............. 284
Bog-Ja Jo, Hee-Hwa Oh, Kyoungho Choi

Geriatric Nursing Education Needs, Knowledge and Attitudes toward the Elderly among Hospital Nurses ........................................................... 290
In-Young Yoo

Effect of the Sacro-Occipital Technique Category II Blocking on Attention and Postural Sway .............................................................................. 299
Ki-Hun Jung, Il-Young Cho, Soon-Kwon Park, Ka-Eun Kim

In-situ Detection of Magnetic Beads Using Si Metal-Semiconductor-Metal Photodetectors .............................................................................. 310
Chel-Jong Choi

Statistical Analysis of the Korean National Health and Nutrition Examination Survey Using Poisson Regression - Focusing on Obesity, Cancer, and Adult Disease ...................................................................................... 316
Hee-Hwa Oh, Kyoungho Choi

The Effect of S.O.T Category II blocking on Low back pain and bilateral pelvic tilting ..................................................................................... 321
Ka-Eun Kim, Il-Young Cho, Soon-Kwon Park, Kyung-Su Cha
In-vivo Insertion of the Thermoluminescence Dosimeter to Measure the Absorbed Dose inside the Body .......................................................... 330
Sang-Tae Kim, Jung-Keun Cho, Cheong-Hwan Lim, Hey-Suk Park

The Effects of Types of Foreign Substances in the Body and Concentration Changes of Barium Sulfate and Iodinated Contrast Agent on the Standardized Uptake Value in PET-CT ......................................................... 337
Sang-Tae Kim, Jung-Keun Cho, Cheong-Hwan Lim, Jong-Seok Lee

Comparison and Assessment of Multi-Detector Row CT and Cone Beam CT in Hounsfield Unit for Bone Density Evaluation in Implant Placement Parts ...... 343
Sang-Tae Kim, Jung-Keun Cho, Hey-Suk Park

Body Mass Index and Medical Care Expenditures in Korea: An eight-year follow-up Study ................................................................. 349
KyoungHa Kim, Kwang Ok Lee, EunShil Yim, Ae-sook Choi

Surface Characteristics of TiN and HA Coated Ti-30Nb-xTa Alloys for Biomaterials .................................................................................. 360
Eun-Sil Kim, Bo-An Kang, Han-Cheol Choe

Relationship between Depression and Sexual Satisfaction in Patients with Colorectal Cancer ........................................................................... 368
Jung-Hee Kim

Web Accessibility Evaluation of Community Rehabilitation Center Homepage ................................................................................................ 373
Ki-Yun Lee, Kyoungho Choi, Hyn-Uk Shin

Weight Analysis of Success Factors for U-Health System ........................................... 378
Je Ran Chun

The Performance of Customer Relationship Management System: antecedents and consequences ................................................................. 385
Hyun Gi Hong, Je Ran Chun

The Effects of Self-efficacy and Internal Locus of Control on Academic Performance of College Students : The Moderating Role of Class Satisfaction ......................................................................................... 391
Woojae Choi

Moderating Role of Organizational Citizenship Behavior on the Relationship between Emotional Labor and Task Performance ........................................ 397
Woojae Choi

An Exploratory Study on Addictive Use of Smartphone : Developing SAUS (Smartphone Addictive Use Scale) ........................................................................ 403
Won-jun, Lee
Exit Behaviors of Foreign Operations of Korean Chaebols and Non-Chaebols

Sunghoon Hong

The Effects of CSR Activities on Firms’ Financial Performance: Investigating in terms of CSR Development Stages

Jae Mee Yoo, Mi Lim Chon

Current States of One-Person Creative Companies in the Korea Broadcasting and Communications Industry

Kwan-Sik Na

Working-time Reductions and Changes in Employment: The Case of Korea

Cho See Jung

Maternal Parenting Behaviors and Emotional Exchange Ability of Young Children: Neighborhood Effect and the Role of Marital Satisfaction and Social Support

Sunju Sohn, Hye-won Hwang

Latent Class Growth Modeling of Korean Male Adults’ Smoking Patterns and its Association with Levels of Depressive Symptoms

Jina Jun, Sunju Sohn, Hyunyong Park

The effects of group music therapy on aggressive and delinquent behaviors in children who experienced on-going child abuse and poverty: A Randomized Controlled Study

Jinah Kim
